How the Harpur Trust will use your information

The school provides the Harpur Trust with the name of each pupil eligible for the school uniform financial support, the parent/carer's name, the pupil's date of birth and postcode. The Harpur Trust uses this information to check that the pupil is eligible for the support, that there are no duplicate applications, and how much of the funding has been spent. Once The Trust has agreed the figures are accurate (in October of this year), the personal data will be deleted from the record. Further information is set out in The Trust's privacy statement, which is available on The Trust's website www.harpurtrust.org.uk.
