Academy curriculum intent: *To provide EVERY student the opportunity to acquire academic excellence and those skills, qualities and experiences that develop well-rounded, successful and happy members of modern society.*

- A 5 Year curriculum design approach for most subjects providing a logically sequenced educational journey.
- We follow the full National Curriculum at Key Stage 3 (KS3) to give our students the broadest and best start to their secondary education.
- We believe in personalisation and choice, so we offer one of the broadest ranges of KS4 GCSE option subjects in the Borough.
- Students are encouraged, but not forced to take EBacc subjects, resulting in significantly more students choosing these subjects, compared to National average.
- Knowledge and skill acquisition are key.
- We have a 'Teach to the Top' mantra, where challenge is always present and differentiation ensures all students have the scaffolding and support to 'Access the Top'
- EVERY student has access to the full ambitious curriculum. We do not reduce, narrow or restrict the curriculum for any learners.
- We pride ourselves on an extremely rich 'wider curriculum' including extracurricular; electives; trips and visits; values; oracy to increase our students' 'Cultural Capital'
- We base our curriculum design and implementation on proven educational research methods.

Subject Curriculum Intent:

Subject curriculum intent: To ensure all students gain the skills, knowledge and understanding required from the Key Stage 3 and 4 curriculum, to develop and embed their learning of art, so they can fulfil their full potential to success.

Implementation: Students will continuously develop and refine their skills in the core areas for assessment at key stage 3.

(Key Stage 3 - The national curriculum for art and design aims to ensure that all pupils: produce creative work, exploring their ideas and recording their experiences, become proficient in drawing, painting, sculpture and other art, craft and design techniques, evaluate and analyse creative works using the language of art, craft and design, know about great artists, craft makers and designers, and understand the historical and cultural development of their art forms),

They then progress naturally through to GCSE **AO1- Develop, AO2 - Refine, AO3 - Record and AO4 - Present**. They will revisit their learning continuously and at specific key points throughout the five years to embed core skills, knowledge and understanding for improvement and progression through the national curriculum course of study for art.

Impact: The development of a well-informed, knowledgeable, critical learner with well-developed skills in the four core areas for assessment, becoming able learners throughout the course of study from Key Stage 3 to 4 and beyond. Creating young artists and learners with an informed view of the world of art and its impact in/on society and art history.
