

Alex Murisi

Hi my names Alex Murisi and I hope you consider voting for me to be head student.

I recently moved to Wixams from Luton and immediately felt welcomed in this amazing community. I now feel as though I have a responsibility to share my ideas with this community to make the experience better for people that may move to this school for far places like I did. I want to use my ideas to create a school where everyone can Express themselves freely without the fear of being judged by others. Some ideas I have to achieve this are:

A guidance counsellor or area to Express emotions

Fund raising events to improve aspects of the school or trips

Culture day or week for everyone to show their different cultures in school

A drop box area for students to pitch in their own ideas to improve the school

An exam stress/mental health awareness club

These are some of the main ideas I have that I would like to use to improve the experience for Wixams students. I hope you consider voting for me as I wish to take on the responsibilities and wishes of the students at our academy
