

Harman Singh

Good Morning students,

I firmly believe I have the skills required for a leadership role, such as Head Student. I'm respected and known in our sixth form as I have the qualities of a leader: I've got a vision, I'm Inspirational and I know most if not everyone in our sixth form group. Even though I might've not always been a Wixams student, I am committed to make the best out of my time for our beloved school.

Throughout my educational journey I've always been 'upgrading' myself and proving to be one of the best people as leaders for a group; nevertheless I have also been advised to change my aim from strategy consultant to prime minister, and this was by one of the Wixams staff members.

I have many ideas, not only for our sixth form, but for the rest of the school as well; some of them include: a medical society, culture club, more house events, a few items for the common room(sixth form) and many more ideas.

If not known I'm quite an incredible fella, as I can speak five languages, I've got an uncommonly rare curiosity, I'm able to play different musical instruments and I'm good at a range of sports.

Furthermore if not surprised yet, I've taken a sample within our Sixth Form, which had a shocking result. This was because 72% of the feedback was fully positive, and only 28% was positive, but with key flaws that I might have.

Thank you for reading this far,
I remain
yours sincerely
Harman
